### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee. Authorization for this examiner's amendment was given in a telephone interview with D. Andrew Floam on 1/31/06. The following amendment is made to place claim 38 in the form it was at the time of final rejection, at which time claim 39 was cancelled.

The application has been amended as follows:

**Claim 39 has been cancelled.**

**Claim 38 has been amended as follows:**

38. A method of determining a position of a mobile unit in a communication system, comprising:

(a) extracting from a received communication signal a spread spectrum chirp signal that includes a first chirp portion of a first sense and a second chirp portion of a second sense that is opposite to the first sense, wherein said extracting comprises extracting the chirp spread spectrum signal only during time slots that are not used for transmission or reception by the mobile unit;

(b) determining a pseudorange measurement between the mobile unit and a transmitter that transmits the communication signal based on the spread spectrum chirp signal; and

(c) determining a position of the mobile unit based on the pseudorange measurement.

39. (canceled)

Art Unit: 2637

2. The following is an examiner's statement of reasons for allowance:

Ames et al. disclose a satellite navigation system using a spread spectrum chirp navigation signal, but does not disclose correlating the detected embedded spread spectrum chirp navigation signal with a reference chirp signal to output a pseudorange measurement signal as recited in claims 13 and 18, and also fails to disclose extracting the chirp spread spectrum signal only during slots that are not used for transmission or reception of the communication signal, as recited in claims 29 and 38.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to David B. Lugo whose telephone number is 571-272-3043. The examiner can normally be reached on M-F; 9:30-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jay Patel can be reached on 571-272-2988. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
